LEADER

Pohjois-Satakunta

PORI

- European wide green economy network
- Better awareness of green economy – from local farmers to politicians
- Improved level of sustainability and self-sufficiency
- Bioregion branding for Northern Satakunta region
- Long term effects on climate change and low-carbon economy

1. International cooperation

- Information exchange between partners
- Benchmarking of best practices
- Interaction: partner meetings, workshops, publications etc.

2. Boosting bio and circular economy friendly politics

- Meetings with local authorities and other interest groups
- Visits to partner areas for local authorities (benchmarking)
- Workshops and seminars
- Disseminating project results

3. Theme workshops for farms and local companies

- Multi-actor workshops (local experts, international partners, farms, micro and small size enterprises)
- Themes: sustainable development, energy efficiency, digitalization, biogas, nutrient recycling, rural innovations etc.

4. Bioregion branding

- Focus on Northern-Satakunta region
